</html>

```

logout.php

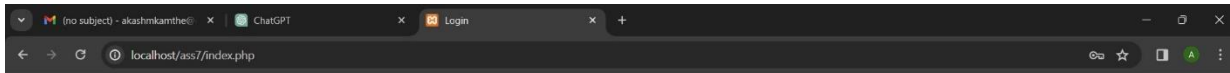

```

<?php
session_start();
session_unset();
session_destroy();
header("Location: index.php");
exit();
?>

```

Output:

1] Login To Start Session

Login

Invalid username or password

2] username stored in Session , Profile page will be shown

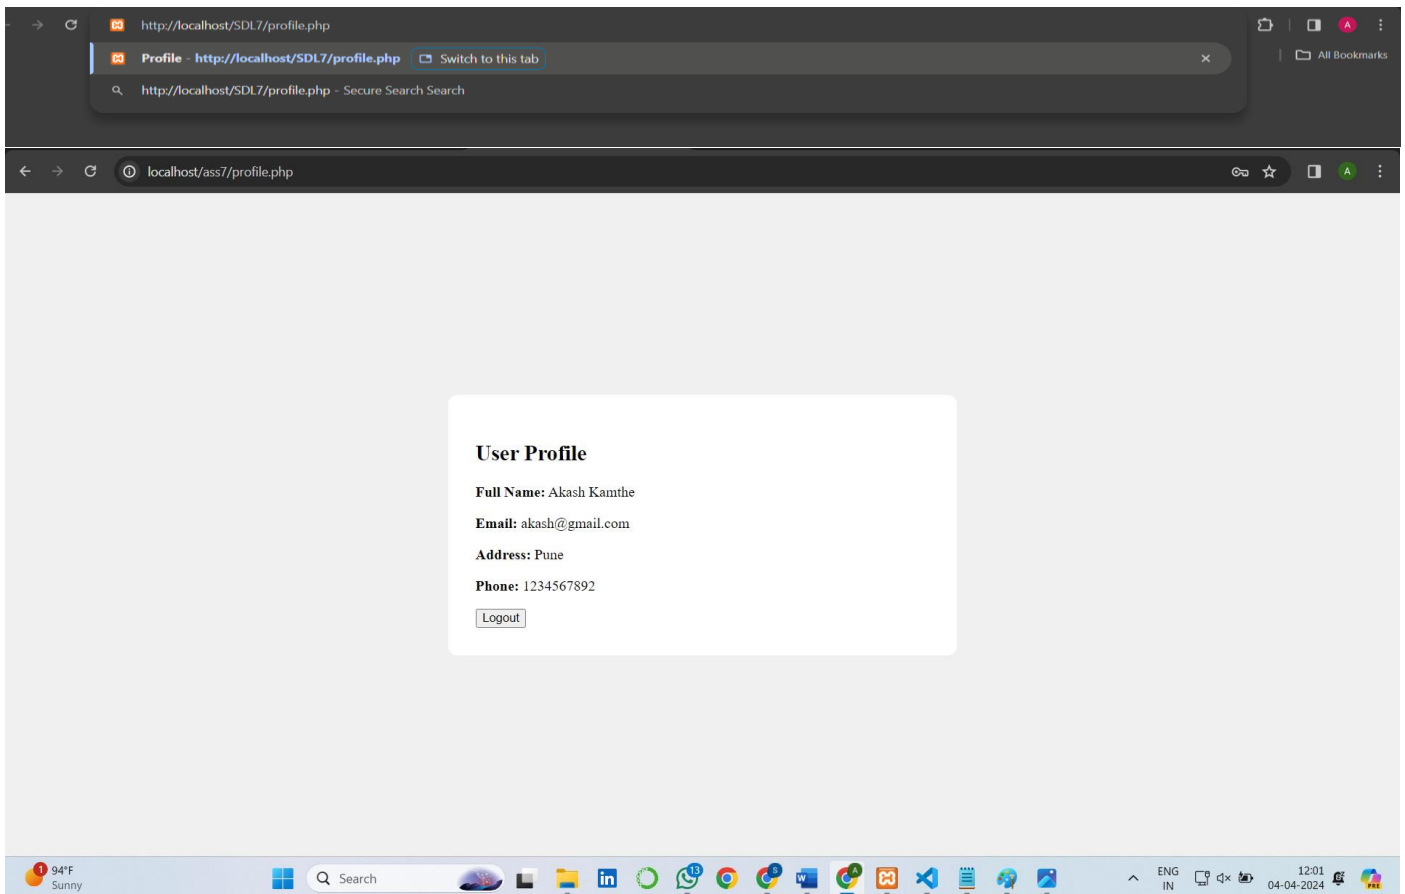

User Profile

Full Name: Akash Kamthe
Email: akash@gmail.com
Address: Pune
Phone: 1234567892

3] when I close this window without logout ,And again when I visit to this url it will show same page as above because user data is stored inn session

4] Session expires when clicked on Logout, User redirected to login page
